

## Comprehensive PCI DSS Policy

*Compliance Focused  
Unbeatable Value  
Easy To Implement*

The **Comprehensive PCI DSS Policy** is a Microsoft Word document that provides you with a customized policy, standards, procedures, guidelines and supporting forms that your business needs to be compliant with the Payment Card Industry Data Security Standard (PCI DSS).

The Comprehensive PCI DSS Policy was specifically designed to be easy to implement – it can be a stand-alone document or be used to enhance your pre-existing IT security policies and standards. This is where the Comprehensive PCI DSS Policy is invaluable.

The PCI DSS is a requirement for any business that processes credit or debit cards – it is a legal requirement that is unavoidable. Since this is a “must do” for your business, our Comprehensive PCI DSS Policy is the key to the missing documentation you need to be compliant, since it clearly documents the controls that need to be in place.

The “comprehensive” nature of our Comprehensive PCI DSS Policy is focused on ensuring you are compliant with the requirements of the PCI DSS. The document is concise and accurately covers the requirements you need, without excessive policies and standards that are not applicable.

The Comprehensive PCI DSS Policy was written by a Payment Card Industry Professional (PCIP) – a certified IT security expert in the topic of PCI DSS and has Fortune 500 IT security experience. This expert insight and experience is invaluable, since it is necessary to create a professional solution.

Our goal is clear – provide customers with a professionally written document that makes sense and can be adopted by businesses of any size:

- *Written in easy-to-understand business-language*
- *Easy to implement with internal staff or outsourced IT*
- *Provide complete coverage for PCI DSS v2.0*
- *Provide excellent value for the money*

You can buy the Comprehensive PCI DSS Policy online and have it delivered to you by the next business day.
